Annual seminar of the French Society of Veterinary Pathology

Tips and tricks in canine and feline mammary tumor pathology

17th- 18^h March 2021
Virtual

Guest speakers

Dr. Laura Pena (University of Madrid, Spain)
Dr. Valentina Zappulli (University of Padua, Italy)
Dr. Frédérique Nguyen, Elie Dagher & Florian Chocteau
(Veterinary School of Nantes, France)

Objectives

We are very pleased to have Dr. Laura Pena, Valentina Zappulli, Frédérique Nguyen, Elie Dagher and Florian Chocteau as invited experts this year for our annual seminar. The seminar will be dedicated to the new classification of mammary tumors of dogs and cats.

This one and a half-day workshop will allow participants to discuss a variety of cases of mammary tumors pathology with the speakers and share their experience. Participants will enjoy case discussion through digital microscopy, as well as lectures.

All attendees are kindly requested to provide canine and feline tumoral mammary gland pathology cases from their own daily practice in canine or feline histopathology. The submitted cases should include complete clinical history, gross pictures if available and stained histological slides. Digitalized sections will be used during the seminar.

The deadline for case submission is **1st March 2021**. Additional information is under "*Case submission information*" section below.

Program

Wednesday 17th March 2020

8:45-9:00	Welcome
9:00- 10:30	Lecture: Mammary tumors – grading and criteria for determining malignancy Dr. Laura Pena (University of Madrid) Dr. Valentina Zappulli (University of Padua)
10:30-11:00	Coffee break – <i>Please have a cup of coffee with us</i>
11:00-12:30	Case discussion
12:30-14:00	Lunch – <i>Please have lunch with us</i>
14:00-15:30	Lecture: Mammary tumors – important diagnostic criteria Dr. Laura Pena (University of Madrid) Dr. Valentina Zappulli (University of Padua)
15:30-16:00	Coffee break - <i>Please have a cup of coffee with us</i>
16:00-18:00	Case discussion
18:15	Closure

Thursday 18th December 2021

16:00-18:00	Lecture: Dr Frédérique Nguyen, Dr. Elie Dagher & Dr. Florian Chocteau (Veterinary School of Nantes, France) 1. Interest of integrating a "histological staging" of canine and feline mammary carcinomas into the anatomopathological report 2. Complementary immunohistochemistry of canine and feline mammary carcinomas: which markers? for what indications and what benefits? 3. Comparative pathology with human breast
--------------------	---

Registration

Online registration will be open from **19th February**.

Registration fees

SFAPV Member	175€
Non Member	210€
Resident #	Free

Exceptionally, registration fees are not required for the French DESV-AP students and anatomic pathology residents from other countries *upon presentation of a certificate*.

All lectures and case discussions will be recorded and available for all participants, but only attendees to the live version can participate in real time discussions and ask questions.

General information

General information about Zoom is available on the following website:

<https://zoom.us/>

Please make sure you register to our webinar using the same email that you registered for a Zoom account.

If you are having difficulties logging in the webinar, please, follow these steps:

- Sign in your Zoom account using your email and password
- Return to the email you received and click on the link. You'll automatically join the webinar when in session.

For more details regarding registration please see this video tutorial:

<https://www.youtube.com/watch?v=QOUwumKCW7M>

Case submission information

Sections will be digitalized for the seminar. Cases from canine and feline tumoral mammary gland pathology should be provided with:

- Complete clinical history
- Gross pictures if available
- Relevant stained histological slides (one copy)

The dead-line for case submission is **1st March 2021**
