

# Histopathologie VET-HISTO Vétérinaire

VET-HISTO provides pathology services to veterinarians including histopathology and cytology and offers a large, varied and growing caseload, mainly from companions animals via interactions with 2 pathologists (one board-certified).

The laboratory is located in the south of Marseille, with beaches and the Calanques National Park nearby, providing great outdoor quality of life and scenic hiking opportunities. France's second largest city, Marseille is a sunny, vibrant city, located at the heart of Provence, one of the country's most popular tourist region with direct fast-speed trains to Paris.

## **The Position :**

VET-HISTO, owned and run by veterinary pathologists, is seeking a **part time pathologist (4 days/week)** to join our existing team of pathologists with long term perspective.

## **Duties and Responsibilities :**

- Interpretation of cytological and histopathological specimens and provision of high quality reports for veterinarians
- Verbal interaction with veterinary customers via interpretation of laboratory results
- Responsible for gross examination of pathology specimens

## **Requirements :**

Veterinary degree and specialist qualification in veterinary pathology

ACVP or ECVP board certification will be considered an asset

Experienced veterinary pathologists will be preferred, however less experienced applicants with appropriate qualification or imminent prospects of qualification will be considered

Candidates must be fluent in French
